Pro Tools [Intermediate]

Film mix & master · Foley SFX · Dialogue · ADR

Career Objective

Dedicated Mixing & Mastering Engineer with extensive experience across music streaming, cinematic scoring, and full-scale film sound post-production. Transitioning from independent production to professional industry environments, I bring a refined ear for vocal and instrumental clarity and a commitment to delivering industry-standard sound. Driven by technical precision and a collaborative spirit to contribute to high-tier commercial releases.

School of Digital Media and Cinematic Arts

● **Banglamong school**

(2017 – 2023)

● **sawangboriboon wittaya school**

(2008 – 2017)

Language

- Thai
- English

Experience

● Sound Post Production

Retroframe · Film—"A Version of Me"

26 April – 14 May 2026

- Managed the complete sound post production pipeline.
- Handled Dialogue editing, SFX design, Foley recording & editing.
- Composed and produced the original film score.
- Delivered final Mix & Master for cinema output.

● Composer / Film Score

Retroframe · Film—"ZeroPast"

27 – 30 November 2025

- Composed and produced original score for the short film.
- Crafted thematic music to support narrative and emotional arc.

TRAINING & COURSEWORK

● Recording Class

- Completed professional training in audio recording, including mixing and mastering techniques.
- Configured studio equipment, including signal chain routing and microphone placement.
- Proficient in Pro Tools for multi-track recording, mixing, and mastering.
- Applied advanced microphone techniques for recording guitar, drums, and vocals.
- Assisted in voice-acting and dubbing sessions within a professional studio environment.

● Basic Orchestration

- Orchestral instrument arrangement covering strings, brass, woodwinds, harp, keyboard, and percussion.
- Applied orchestration techniques for pop, rock, electronic, film scoring, and game music.
- Studied position, range, and instrument doubling principles as compositional foundations.
- Orchestration analysis and demonstration across 16 sessions using Logic Pro.
- Produced a fully edited orchestration project incorporating all instrument families.

● Cinematic Sound & Music

- Analyzed the role of sound and music as narrative elements in film through spotting sessions and hit-point identification.
- Applied harmony, melody, leitmotif, and modal psychology to create character and scene themes.
- Practiced synchronization techniques including tempo mapping, Mickey Mousing, and frame-accurate scoring.
- Designed soundscapes using Foley, ambiance, SFX, and layered DAW editing for dialogue clarity and depth.
- Completed a full scene scoring project: composition, sound design, and introductory mix for picture
