- AI Tools

SOFTWARE

Pro Tools [Advanced]
Music production · Recording · Mix & master · Foley SFX · Dialogue · ADR

Ableton Live [Advanced]
Music production · Film score mix & mastering

Career Objective

Dedicated Mixing & Mastering Engineer with extensive experience across music streaming, cinematic scoring, and full-scale film sound post-production. Transitioning from independent production to professional industry environments, I bring a refined ear for vocal and instrumental clarity and a commitment to delivering industry-standard sound. Driven by technical precision and a collaborative spirit to contribute to high-tier commercial releases.

Education

- **Bangkok University**
  (2023 - PRESENT)
  School of Digital Media and Cinematic Arts
- **Banglamung school**
  (2017 -2023)
- **sawangboriboon wittaya school**
  (2008 -2017)

- Thai
- English

Experience

Recording Intern

Studio 28 · Recording Studio

1 August– 31 October 2026

- Set up microphones and signal chain for tracking sessions.
- Recorded vocals and instruments in Pro Tools.
- Organized session files and prepared tracks for mixing.

Composer / Film Score

Retroframe · Film—"ZeroPast"

27 – 30 November 2025

- Composed and produced original score for the short film.
- Crafted thematic music to support narrative and emotional arc.

Recording Engineer

Home Studio · Freelance

27 – 30 November 2025

- Recorded songs for friends in my own home studio.
- Handled mic setup, tracking, and session management in Pro Tools.

TRAINING & COURSEWORK

Recording Class

- Completed professional training in audio recording, including mixing and mastering techniques.
- Configured studio equipment, including signal chain routing and microphone placement.
- Proficient in Pro Tools for multi-track recording, mixing, and mastering.
- Applied advanced microphone techniques for recording guitar, drums, and vocals.
- Assisted in voice-acting and dubbing sessions within a professional studio environment.

Cinematic Sound & Music

- Analyzed the role of sound and music as narrative elements in film through spotting sessions and hit-point identification.
- Applied harmony, melody, leitmotif, and modal psychology to create character and scene themes.
- Practiced synchronization techniques including tempo mapping, Mickey Mousing, and frame-accurate scoring.
- Designed soundscapes using Foley, ambiance, SFX, and layered DAW editing for dialogue clarity and depth.
- Completed a full scene scoring project: composition, sound design, and introductory mix for picture
